

Subject: July 2018 Resources of the Month

Dear UCCCN members,

Here are your July 2018 resources of the month.

Brainstorming:

Case #1 –Jan Bowker, Intermountain Memorial Clinic, on a success: models for mental health/medical home integration, initiated two years ago when understaffed. Now with a psychiatrist, LCSW, and psychologist; a 14 yr old potential suicide risk, mother didn't want to admit her to hospital, staff was available and care plan developed. It's very advantageous to have mental health onsite. By partnering with primary care they have a psychologist and psychiatrist.

Intermountain Pediatrics now has mental health counselors, some have psych residents. Some percentage have a psychiatrist. It's best if need arises within clinic hours as therapists split 70% patient consults/30% clinics, one half-day once a week. Down side is insurance paneling—who you can get with Medicaid is different from other insurance. For private practices, mental health integration is difficult, but can be done.

Case #2 - Heidi Bates, South Jordan Care Manager, has a 12 -14 yr old with PEHP insurance. Because patient is older, insurance won't pay for autism neuropsych test (~\$3000). Family just moved into the Jordan School District but patient goes (will go) to a charter school. Advice: keep trying the school district. See also:

[Neuropsychological Assessment Services Category](#)

[University Developmental Assessment Center \(UDAC\), Department of Pediatrics, University of Utah](#) Autism Spectrum Disorder assessment at low cost. [MHP 23877](#)

[BYU Comprehensive Clinic](#) Psychological and neuropsychological assessments at low cost for Utah County. Autism neuropsychological testing serves younger children first. [MHP 22515](#)

Disclaimer: These resources come from our members as part of the meeting brainstorming session; please check with your providers to make sure they are appropriate for your patient/families.

You can find a custom list of these service providers that can be printed, emailed, and more, here: [July 2018 UCCCN Resources](#)

Presenter: Shriners Special Needs Car Seat Clinic, Claire Behnke, DPT, Seating and Mobility Services

[Special Needs Car Seat Clinic, Shriners Hospitals for Children – Salt Lake City](#)

Self-referral, greater-than-toddler-size kids, with poor head control, or significant neuromuscular disease. Must be an established patient in the Shriners system. (New patients accepted up to age 18. Continuing patients may be seen to age 21.) The Special Needs Car Seat Clinic occurs two Fridays per month. At the time of the clinic visit, a loaner car seat is sent home and insurance is billed. Medicaid will cover. Shriners considers each case individually and is very willing to work with families. [MHP 27005](#)

[Wheelchair and Seating Services, Shriners Hospitals for Children – Salt Lake City](#)

An in-house custom seating clinic available to all patients with seating needs. A wait through Sept for appointment. May receive both manual and power chairs. [MHP 29588](#)

[Pediatric Orthotic & Prosthetic Services \(POPS\) – West, LLC, Shriners Hospitals for Children – Salt Lake City](#) POPS is a team of certified prosthetists, orthotists and specially trained technicians who manufacture and fit custom-designed braces and artificial limbs. [MHP 23884](#)

[Un-limb-ited Amputee Activity Camps, Shriners Hospitals for Children – Salt Lake City](#) Summer and winter camps for children and young adults with amputations. A one-week winter ski camp in Park City through Wasatch Adaptive, 25 kids ages 12 - 17. A one-week summer rafting camp ages 12 – 17. 3-4 day mixed ages camps for both ski and rafting, ages 6 - 11 mentored by ages 18 - 21. Regional area served. [MHP 12792](#)

[Utah Clubfoot Clinic, Shriners Hospitals for Children – Salt Lake City](#)

Weekly M & Th. Riverton on Monday. Specializes in the treatment of clubfoot using the non-surgical Ponseti serial casting method. [MHP 23912](#)

[Specialty Clinics, Shriners Hospitals for Children – Salt Lake City](#) Clinics include: Neuromuscular Clinic monthly; Clubfoot Clinic twice a week in two locations; Osteogenesis Imperfecta Clinic quarterly; Hand Clinic monthly; Skeletal Dysplasia Clinic three times a year; Cornelia de Lange Syndrome Clinic two times a year; Infantile scoliosis/EDF casting Clinic; Plastic Surgical Clinic monthly; Spine Clinic twice a week; Special Needs Car Seat Clinic twice a month. [MHP 10698](#)
